Dedicated to my daughter, **Carolina** is an ambient light table lamp.

The overlapping of the two layers that compose it through the intersection of curved lines recall the phases of conception of fetal growth and birth through a purely stylistic interpretation. The body of the lamp is made of composite material while the base is made of iron.

The LED 2700 K light is equipped with a dimmer that allows you to change the light intensity to your liking.

The finish that now distinguishes us is always in pastel with sandblasted texture and opaque white interior.

Weight: 1,00 Kg

Dimensions: 51 x 14 x 3 cm

Power supply: 110/220V/Ac > 24V/Dc
